## Dance with the Stars

We teach you all the steps you need to be a ballroom dancer. Whether you are a beginner or an expert dancer, we have ballroom dancing classes at various levels, for all age groups. If you are looking for preparing for the next year prom – this is the class you can rely on. You can explore South American rhythms, perfect tango or merengue.

## Art Workshops for Children

“Children are masters of creation and create freely – they are very intuitive and it is this instinct and their unedited ability to create art that inspires me. /.../ Running workshops with multiple participants creates an energy that empowers each artist to do new and unexpected things.”

—Herve Tullet

Optional: Combo Art/  
Dance medley
