

## **INTENT TO APPLY FORM**

### **International Academy for Culture, Arts, Science and Technology (CAST) Charter School**

The CAST Charter School proposes to open in Yonkers in fall 2021 with an inaugural 9<sup>th</sup> grade class and add one grade per year thereafter until it becomes a grades 9-12 high school.

It is the mission of the CAST Charter School to provide students in Yonkers with the academic, social and emotional skills necessary to successfully pursue a college degree and prepare for a professional career path in life. CAST welcomes students from all paths of life with a purpose to develop individual talents and ready them for independent life in society.

CAST will be an international school that serves all types of students from the Yonkers community and exposes them to the many cultures, languages and peoples of the world. It will offer a college prep program deliberately designed to prepare students not merely to graduate high school but to enter and succeed in post-secondary education. CAST will integrate the arts and technology into core classes and provide students with opportunities to study various arts disciplines and technology. The school will emphasize performance, production and presentation so students have many ways to demonstrate their skills and knowledge. CAST will offer a longer school year and school day so students have more time for learning. CAST will also welcome students with disabilities and English language learners and provide individualized supports for all students.

If you have a child who will be entering the 9<sup>th</sup> grade in fall 2021 or after and would like to express interest in submitting an application, please complete the intent to apply form below. The school must use a random lottery to select students, so filling out this form does not guarantee your child a seat in the school, but will ensure you receive an application to complete when the admissions process opens.
